SUMMARY

As a Computer Science graduate with a strong passion for developing web applications and systems, I have gained solid front-end and back-end development skills through various academic and personal projects. I am eager to apply my knowledge in a professional setting, contribute to real-world solutions, and continue growing as a developer. As a quick learner and adaptable team member, I am excited to take on new challenges and add value to dynamic development teams.

EXPERIENCE

Co-Founder, Chief Operator | IATA   **2020 – 2021**
Information And Technology Association

Developed and managed the school official website with online result portal facilitating the process for students and parents to access academic information.
